The first documentation reports will be mailed 27 February and each Monday thereafter. A record of items of meteorological interest observed on local flights will be consolidated on one form for each day's operation. Separate forms will be used for each cross-country flight.

As soon as the 3 inch film becomes available [redacted] will check the possibility of making measurements of aircraft heights and winds at flight level from the film.

6. Security

[redacted] and [redacted] from the [redacted]
[redacted] are giving weather briefings at the Watertown Strip.
When these officers were assigned these duties by AW5, it was
not necessary to have them fully witting of Project AQUATONE.
However, due to close association with the people at the
Watertown Strip, [redacted] appears to have learned the
purpose of Project AQUATONE. From a security standpoint it
would probably be better if both [redacted] and [redacted]
[redacted] were fully briefed. [redacted] of [redacted]
[redacted] been informed of this and will bring it to Colonel Berg's
attention.
